improving deaf and disabled people's access to live music

The Charter of Best Practice – An Introduction

Attitude is Everything improves Deaf and disabled people's access to live music by working in partnership with audiences, artists and the music industry to implement a Charter of Best Practice across the UK. Music Without Barriers.

We support the music and events industries to understand Deaf and disabled people's access requirements at venues and festivals by building equality into the strategic process. The ethos of the Charter is that Deaf and disabled people should be as independent as they want to be at live music events.

The Charter is a bespoke service awarded in 3 stages - Bronze, Silver and Gold. Each stage details the criteria for improvements and advises on how to achieve them. We support venues and festivals to create a realistic action plan in order to work through each level of the Charter and aim for the Gold award, by demonstrating an on-going commitment to improving accessibility and achieving best practice.

The Charter brings together Attitude is Everything's knowledge and best practice advice developed over 15 years of working with the music and events industries across the UK. Our aim is to help venue and event organisers to understand the potential access requirements of Deaf and disabled people at venues, festivals and outdoor arts events.

The Charter of Best Practice details the facilities, actions and policies we recommend, clarifies the reasons behind each target, and provides further detail as to how each element can be achieved and the factors that will need to be considered in order to attain the best possible results, in addition it requests venues, festivals and event organisers sign up to 5 expectations and agree to implement them as part of the Charter process.
